Received in exchange from Mr. J. Hackman  
in 1905. Sex determined by him.

Two Galapagos tortoises bought by the Academy, Nov. 11, 1904, from Mrs. Wm Johnson of 922 5<sup>th</sup> Ave Oakland, Cal. Price \$6 apiece. These tortoises were living and had been kept by Mrs. Johnson since May 1901 when they, with several others were brought to San Francisco by Capt. W. P. Noyes of the "U. S. Phelps, who procured them on Albemarle Island. Died during winter 1904-05, apparently from cold. Given to the Academy by Mr. R. H. Beck in winter of 1904. Was one of same lot as Nos. 4997-4998, collected by Capt. Noyes on Albemarle Island and brought to San Francisco in 1901. Sex of these three determined by J. Van Dine.
